

Rotational Grazing in Action

Join us for a virtual pasture walk with renown grazing specialist, Russ Wilson. The meeting will be held via Zoom and has 2 parts (please register for both):

- **August 20 (10:00 – 11:00 AM)** - a "coffee shop," informal chat with the speaker that will serve as a training session to familiarize yourself with the Zoom platform. This is the time to try out Zoom, get to know Russ a little, and get used to the virtual meeting atmosphere.

Register for Session 1 here: <https://www.eventbrite.com/e/113146231424>

- **August 27 (10:00 AM – noon)** - an interactive session entitled "Rotational Grazing in Action" where Russ takes us through his adaptive grazing system, fencing, and watering facilities and answers your questions about your farm. He welcomes input, questions, and discussion!

Register for Session 2 here: <https://www.eventbrite.com/e/113467997836>

- **These sessions will both be recorded and made available for future use!**

Limited seats—
Register today!

About our speaker: Russ Wilson owns and manages a 220-acre adaptive grazing system in Northwest Pennsylvania where livestock are pastured for over 300 days per year. With more than 40 years of practical experience in agriculture he has learned how proper forage management and species diversity can pay dividends for livestock production and soil health. Russ employs a low input and skillful management approach to make sure the farm delivers profitability and provides an enjoyable place to work.
